Unaltered for during the year

For each of the above calendar years for each of the cemeteries within your authority, please also provide

-The number of individual burials which took place

Burials	319	268	243	322	281	354	323

**includes 4 cremations undertaken on behalf of West London Crematorium

-The number of individual cremations that took place (if applicable)

Please also provide the estimated required burial space for your authority to 2030, and the estimated capacity

-Total number of plots required assuming an average of 301 burials per annum between 2013-2019 that would require approximately 3000 graves over the next 10 years

-Total number of plots available The Council has recently purchased an 11 acre site which will be developed in 2020, this will provide sufficient burial space for the next 20-30 years. There is sufficient burial space at Hendon until the new cemetery is operational.

If there are any upcoming provisions to expand burial capacity within your authority, please specify.

See above

Could the response be sent in .xlsx format with individual cemeteries in rows and responses in columns.
