[DHSC PHE Letter - Further information on COVID-19 testing in social care.pdf](#)

Hi [REDACTED],

I'm well thanks, I hope you are too.

Regarding data collection, it is only DCA data that is coming to us, via the 'Update CQC on the impact of Covid' online form. This is being shared with the LGA on behalf of and for passing on to local authorities. Internally I have not seen this data yet but am trying to find out when I will get it. I will keep you updated. Care homes are filling in the NHS capacity tracker.

Testing – CQC's only involvement now is with a pilot in nursing homes where we are providing the technology, information and resource to assist in the trialling of testing kits being sent to care homes for testing of residents. Obviously, in many areas there are local arrangements in place and the testing we are supporting is an option for care home providers if they are not accessing testing for residents through other routes. We only provide front end services and have no involvement in the actual testing or receive any results. I've attached a recent DHSC/PHE letter, which you may have seen.

Happy to discuss.

Best regards,

Subject: RE: Information Requested from Care Providers

Hi [REDACTED]

I hope you're well. Two quick questions;

1. The data you're collecting from Care Providers, particularly around deaths in care homes, is there available data for Barnet you could share?
2. Are CQC involved in arrangement of staff or resident testing plans at the moment?

Thanks,

**Head of Care Quality, Customer Finance and Transformation
Adults and Health**

Subject: RE: Information Requested from Care Providers

Hi [REDACTED],

As I understand it, CQC were asked to do it as there is no centralised data collection as there is with the other sectors. I completely understand your need for that data and to have it promptly. I am enquiring what the timescale is between collection and being made available to end users. Will get back to you as soon as I have an answer.

Best regards,

Thanks for the update.

We're currently collecting exactly the same information on a weekly basis and inputting into ADASS.

We really need this information directly to the LA as we allocate staff testing, PPE, volunteer support, local health support.

Do you know when we will receive if it CQC requests? Seems a very strange decision for the DHSC to ask CQC to ask these requests.

Subject: RE: Information Requested from Care Providers

Hi [REDACTED],

CQC have added a box to our death notification form for providers to tick if the death is either suspected or confirmed Covid. We have also been asked by DHSC to send out a daily survey form to domiciliary care providers (see copy attached). This data is shared on a daily basis with DHSC, Local Authorities, MHCLG/Local Resilience Forums, NHSE regional leads and their teams, and CQC inspection teams to support immediate mobilisation of help for providers.

In our daily data feed we also include data from NHS England Capacity Tracker (including residential care); CQC registration data; provider notifications; provider/public feedback via our contact centre; and public/professional feedback via our Give Feedback on Care form on our website.

I'm aware that London ADASS are also asking for this information separately, although I know that in some parts of the country they have stopped and are using our data.

Happy to discuss.

Best regards,

Subject: Information Requested from Care Providers

Hi [REDACTED],
I wanted to check if CQC were collecting information from care providers and what information they were requesting?
We're getting reports from care providers about getting lots of requests for information – so would be good to understand what CQC are requesting.
Hope you're well.

Thanks,
