FYI the attached from another objector (annoyingly, with the same name as the agent. Better make sure we reply to the right one...!)

Not clear if this is a new objection to be recorded or he was just sending Cllr Gordon their previous submission.

As per my email the other day, at some point someone is going to have to physically go there.

For the time being I will say it is with you, but in the event of a recommendation for approval it would go to the committee – at which point the sv protocol is still TBC

Thanks

Mark

Dear Councillor Gordon,

Many thanks for your quick reply.

I have attached my response to the planning application and I have also copied in Mr Springthorpe.

Please can I take this opportunity to invite you both to come and view the proposed development as it will be seen from my property on Glendale Avenue as no one has come to view it from the council and you will no doubt wish to have this information in order to make an informed decision on the matter. Please let me know when will be a convenient time for you to come and see how overbearing and imposing this development will be on the properties in Glendale Avenue.

I look forward to hearing from you,

Yours sincerely,

Samuel Bennett.

Dear Sam

If you have received a consultation letter from the Council regarding the application it tells you on there where to send your objection- easiest way is by e mail.

If not, you can anyway send in your objection to the chief planning officer for the Hendon Area (of whichj Edgware is part) - namely mark.springthorpe@barnet.gov.uk

I trust this helps. You can copy your letter to me if you wish

Regards,

Cllr Brian Gordon

Dear Councillor Gordon,

I hope you are keeping well.

Further to our telephone conversation a few weeks ago I wanted to get in touch to discuss the proposed development behind my house and to seek some advice on how I can best object to its approval.

I'm not sure if you're familiar with this application but it proposes to build a large property at the end of my garden which would be massively overbearing and impact on my property.

Any advice would be much appreciated

Best wishes,

Sam Bennett
