Dear Sir or Madam,

Town And Country Planning Act 1990

SITE: 160 Hendon Lane, London, N3 3PS

PROPOSAL: Single storey ground floor rear and side extension. Creation of new basement level

A planning application has been submitted to Barnet Council for the above development. If you would like to look at the application, the easiest way is through our website, by following the link at https://publicaccess.barnet.gov.uk/online-applications/ and entering the application reference 19/6259/HSE or address into the Simple Search.

Comments should be submitted online using the 'Make a Public Comment' option once you have found the application you wish to comment on and should be received by 17 January 2020. The website contains guidance on how to comment on a planning application.

Alternatively, comments can be posted to us at the above address and must be received in writing by 17 January 2020 if you want us to consider them. Please ensure your name, address, daytime telephone number and, where available, email address is included in any written correspondence and quote reference **19/6259/HSE**.

Publication of Comments

Any formal comment you make about an application will form part of the planning register and will be placed on the public file. This means that your comment, name and address will form part of the application documents and will be available for inspection. **Your comment, name and address will be published online.** Signatures, email addresses and telephone numbers will be redacted.

Please do not include any personal information in your comment that you would not be happy to be made publicly available. *Do not include personal information about other people without their permission.* We acknowledge some comments may need to be

made in confidence and we have a process to deal with this. More information about this is available on the website. But please note that transparency is in the public interest and names of individuals will only be redacted in exceptional circumstances.

If you wish to be considered as a potential speaker, should the application be determined by committee, you need to state this when making your comment on the application. This is done either by ticking the 'request to speak' box on the online system for commenting, or if you are providing at written response by post then please write '*I request to speak at committee'* visibly at the top of your letter.

Speaking at Committee

Most planning applications are approved or declined by council officers who review your written comments and summarise these within their report where the application is determined. Some applications will be discussed at a council planning committee – usually these are major applications, applications that have been 'called-in' by a ward Member or have been referred to committee for determination by the Chief Planning Officer. Where an application is decided by a committee, the council's constitution allows for up to two speakers for each application, plus the applicant or their representative.

If more than two people request to speak in favour or against an application, then we will expect commenters to agree among themselves who is best placed to speak. To arrange this, we provide the name and email address of everyone who has requested to speak on the item to each other. It is not possible for you to request to speak without agreeing to your name and email address being shared with other people who also want to speak on this application.

Yours faithfully,

Hibaaq Gelleh
