**EQUALITIES AND
DIVERSITY ISSUES** None

SITE VISITS: 7/9/2010

OFFICER REPORT: The site was inspected following a complaint by local resident.

On inheritance of the case I conducted a site inspection where it was revealed that the single storey rear extension has not been built in accordance with the approved plans.

Following my site inspection I sent a letter to the owner of the

property, inviting them to submit an amended planning application or build the extension in accordance with the approved plans within 28 days.

On expiry of the deadline no application was submitted and the extension has not been amended to comply with the permission so in order to avoid this continued breach of planning control; this notice has been drafted.

**PLANNING
APPRAISAL:**

The property is two storey semi detached dwelling house located on Engel Park which is characterised by semi detached single family dwelling houses.

Planning permission (H/014425/10H) was granted for a single storey rear extension. The approved extension had a depth of 3 metres on the boundary adjoining No. 102 Engel Park and stepped out to 4.5 metres. However the extension which has been built has a depth of 4.5 metres across the full width of the property.

The extension is considered to be unacceptable on the basis that it results in a rearward projection of over 4.5 metres adjacent to the boundary with No.102 Engel Park which is detrimental to the residential amenities, as the extension is considered to reduce the amount of light and outlook to the ground floor windows of neighbouring property 102 Engel Park.

JUSTIFICATION 1. : The single storey rear extension by reason of its rearward projection and height is considered to cause a loss of daylight, outlook and increases the sense of enclosure from the closest rear window of No.102 Engel Park contrary to policy D5 of the Unitary Development Plan (Adopted 2006)and Supplementary Planning Document: Design Guidance Note 5: Extensions to Houses.
