

Air Pollution Ref 9582716

**** Please provide access to any air pollution audits the council has done on schools in its area.***

Air Quality Audits for Wessex Gardens School and Tudor Primary School are available at the following web address:

[The Mayor's school air quality audit programme | London City Hall](#)

Martin School (East Finchley) Air Quality Audit was completed in 2022, however is not currently available online. Given that the report may contain some sensitive details regarding the school's layout, we will await permission from the school to provide this report to external parties.

**** What are the air pollution levels at the schools in your borough?***

Air pollution levels are highly varied across the borough when comparing localities, therefore air pollution levels at schools across Barnet will also be extremely varied; local pollution levels depend on several factors, including but not limited to proximity to main roads, typical transport methods used by parents/children/staff, street canyons, and overall air pollution dispersal potential. Pollution levels are also very variable over periods of time, e.g., rush hours vs off-peak hours. As such, the answer to this question in its current form is not reliably or easily quantifiable.

Air Quality Data at Schools in Barnet can be found using the following sources:

Breathe London Monitoring is currently performed at some schools in Barnet:

- Martin School
- Orion Primary School
- Wessex Gardens School
- Christs College Finchley (to go live soon)

These monitors collect data on NO2 and PM2.5. Further information, and monitoring data may be found here: [Breathe London](#)

The London Atmospheric Emissions inventory provide modelled data with a baseline year of 2019; there is a list of modelled pollutant (NO2, PM10, PM2.5) concentrations for every school in London which exceed national limits and/or WHO guideline limits; some of these schools are located in Barnet in 2019 (see table below). Further information can be found here: [London Atmospheric Emissions Inventory \(LAEI\) 2019 - London Datastore](#)

Automatic and Diffusion tube monitoring at two schools can be found within Barnet's Air Quality Annual Status Reports: [Air quality monitoring | Barnet Council](#)

**** Not including funds for School Streets, what budget does the council put towards measures that address air pollution within its schools?***

Air quality issues are incorporated into many different departments within the council e.g., highways, town centres, public health, sustainability etc. each department dedicates a portion of its funding towards air quality (monitoring, school audits, public realm improvements etc) when required. Therefore, we do not have access to this information

**** How many times has the council been contacted by constituents about air quality in the last year? And how many of these complaints have been followed up?***

We have received approx. 18 complaints over the past year regarding air quality. All complaints are followed up as this is a requirement to meet our key performance indicators. We periodically have general questions regarding air quality within the Barnet - 5 have been recorded so far over the past year.
