Subject: Quote for Services- School Streets
Attachments: Brief for Project Centre v01.docx; Appendix A school streets prioritisation tool.xlsx; Appendix B School Street Site Visit info v01.xlsx

Hi All

I have written a brief for services to develop a feasibility report and designs for school streets across the LB Barnet. Have previously discussed this with [REDACTED]. I will need to put this in the LB Ealing Framework template once we are happy with the quote provided but I think I need first a quote from you.

Please can you respond with your quote for providing this service and also let me know the Ealing Framework rates for PCL as I believe these rates could be due to change due to CPI.

Any queries just give me a shout.

Thanks
