Thank you for your request received on 15 August 2019, for the following information:

**To Whom It May Concern,**

**I am currently working to understand the nature and provision of restrictive interventions, as used with children, and training programmes that relate to such interventions.**

**I am seeking this information across all schools within your local authority and may use the information to compare practice across local authorities. It is with this in mind that I am writing to make an open government request for all the information to which I am entitled under the Freedom of Information Act 2000.**

**My questions are as follows:**

- 1. Do schools in your local authority record incidents of restraint used by staff on pupils?**
- 2. If yes, how many incidents of restraint were recorded in schools in your local authority in the 2018/2019 academic year? (if data is not available for this time period, please provide us with the most up-to-date statistics). If possible, please break this data down by school type:**
  - a. Primary school**
  - b. Secondary school**
  - c. Alternative Provision school**
  - d. SEND.**
- 3. Do you record injuries that result from incidents of restraint in schools used by staff on pupils?**
- 4. If yes, how many injuries that resulted from incidents of restraint were recorded in schools in your local authority in the 2018/2019 academic year? (if data is not available for this time period, please provide us with the most up-to-date statistics). If possible, please break this data down by school type:**
  - a. Primary**
  - b. Secondary**
  - c. Alternative Provision**
  - d. SEND.**
- 5. Do schools in your local authority have a policy in place for a Restrictive**

**Intervention Reduction Programme? Please provide a copy of or a link to the most recent policy.**

We have processed this request under the Freedom of Information Act 2000.

This data is not collected by the Local Authority as it is no longer a requirement.

Schools record incidents of physical restraint internally, according to their individual policy. Generally, where physical restraint is included as part of a young person's behaviour management plan, incidents would be logged but not recorded in detail. A more detailed record would be expected where an incident has occurred and physical intervention has been necessary, which is not included in any plan. This record would include recording any injuries to staff or pupils. Records are retained by the schools.

Schools generally include Positive Handling as part of their internal Behaviour Policies.

Schools (including academies) are considered under the Freedom of Information Act (FOIA) to be public authorities in their own rights, and are subject to the FOIA in the same way as the council (albeit with different timescales to meet). It is therefore correct that the council does not hold this information, and that individual schools would need to be contacted.

### **Advice and Assistance : Direct Marketing**

If you are a company that intends to use the names and contact details of council officers (or other officers) provided in this response for direct marketing, you need to be registered with the Information Commissioner to process personal data for this purpose. You must also check that the individual (whom you wish to contact for direct marketing purposes) is not registered with one of the Preference Services to prevent Direct Marketing. If they are you must adhere to this preference.

You must also ensure you comply with the Privacy Electronic and Communications Regulations (PECR). For more information follow this Link [www.ico.org.uk](http://www.ico.org.uk)

**For the avoidance of doubt the provision of council (and other) officer names and contact details under FOI does not give consent to receive direct marketing via any media and expressly does not constitute a 'soft opt-in' under PECR.**
