Thank you for your request received on 6 February 2020, for the following information:

**I understand from correspondence that 'There are potential issues with the phasing of the traffic lights, issues which could affect drivers of heavy goods vehicles and have an impact on their ability to navigate the location in question without contravening yellow box junction restrictions. We will continue to investigate these issues to come up with a solution.'**

**From your response stating, 'I have asked the Parking Service to revisit this request, and am able to inform you that records show that a total of two penalty charge notices were issued to HGV1 vehicles at this location in the period identified', I could therefore assume that, potentially, 12 HGV1 vehicles were issued at this location during a year.**

**I should like to know under the Freedom of information Act whether Barnet Borough Council has 'come up with a solution' and whether measures have now been put in place to remedy the problem, i.e. correct the potential issues.**

We have processed this request under the Freedom of Information Act 2000.

Regarding the traffic light phasing, this is something that will be looked into and dealt with by Highways and TfL. Our Traffic and Development team are still in the process of reviewing traffic management at this location. In the event that there is a confirmed issue with the traffic light phasing, the location will be included within a scheme where the team would liaise with Transport for London with view to amending the phasing. The scheme will be launched once the team have obtained the required funding. Whilst there is not yet a confirmed launch date, the team are working toward launching the scheme as soon as possible.
