Response - We currently have 72 CityEV lamp charge points across the borough, the locations of which can be found on our website. We will shortly be expanding our network of lamp column charge points and plan to rollout additional Siemens charge points throughout 2021.

Furthermore, we have a network PodPoint freestanding charge points and community charging hubs located in town centre car parks across Barnet. This is in addition to ChargeMaster charging facilities at both New Barnet and Copthall Leisure Centre.

We will shortly be installing our first rapid charge points which will allow an EV to 80% charge within half an hour.

Advice and Assistance : Direct Marketing

If you are a company that intends to use the names and contact details of council officers (or other officers) provided in this response for direct marketing, you need to be registered with the Information Commissioner to process personal data for this purpose. You must also check that the individual (whom you wish to contact for direct marketing purposes) is not registered with one of the Preference Services to prevent Direct Marketing. If they are you must adhere to this preference.

You must also ensure you comply with the Privacy Electronic and Communications Regulations (PECR). For more information follow this Link www.ico.org.uk

For the avoidance of doubt the provision of council (and other) officer names and contact details under FOI does not give consent to receive direct marketing via any media and expressly does not constitute a 'soft opt-in' under PECR.
