Thank you for your request received on 12 October 2021, for the following information:

I seek confirmation of a set of temp traffic lights that were operational for a few days around 21 January 2021 and situated in Totteridge lane Whetstone N20 ,adjacent to one of the two ponds located near Ellen Meade nursing home. Apologies but i do not believe there is a side road nearby to assist further with the location. However i believe the lights were between Barnet Lane and Hendon Wood Lane

**It would also be helpful ,but not vital if you could advise-:
How many days were the lights in situ.
The distance between the temp ATS controlling the traffic flowing in each direction.**

I am shortly to appear in Court following an incident at these lights ,and the above info would greatly assist my case.

We have processed this request under the Freedom of Information Act 2000.

There were no signal works at this location at the time stated.

The only works we had with signals were between 5th and 8th January and these were between Pine Grove and West Hill Way.

Advice and Assistance : Direct Marketing

If you are a company that intends to use the names and contact details of council officers (or other officers) provided in this response for direct marketing, you need to be registered with the Information Commissioner to process personal data for this purpose. You must also check that the individual (whom you wish to contact for direct marketing purposes) is not registered with one of the Preference Services to prevent Direct Marketing. If they are you must adhere to this preference.

You must also ensure you comply with the Privacy Electronic and Communications Regulations (PECR). For more information follow this Link www.ico.org.uk

For the avoidance of doubt the provision of council (and other) officer names and contact details under FOI does not give consent to receive direct marketing via any media and expressly does not constitute a 'soft opt-in' under PECR.
