Thank you for your request received on 15 August 2022, for the following information:

I and many neighbors are concerned about the many road accidents we have seen in the area recently. Therefore I would like to request a record of all collisions / vehicle accidents in the Borough over the last three years if possible. I hope you can help with this.

We have processed this request under the Freedom of Information Act 2000.

Response

The council holds the information requested.

I and many neighbors are concerned about the many road accidents we have seen in the area recently. Therefore I would like to request a record of all collisions / vehicle accidents in the Borough over the last three years if possible. I hope you can help with this.

The most up to data is held by TfL and is available on-line here:
<https://tfl.gov.uk/corporate/publications-and-reports/road-safety>

The final page of the road danger reduction dashboard can provide a map view of the most recent 3 years validated data in Barnet if borough and date filters are applied, and a description of each collision can be viewed from one map.

There are also data downloads available by expanding the heading Collision data extracts in the section headed Road collision data. Data is provided for the whole of London, but again can be filtered by borough.

Contact details for other information are provided if the information included in the dashboard or data extracts are not sufficient.

Further information

If you are interested in the data that the council holds you may wish to visit Open Barnet, the council's data portal. This brings together all our published datasets and other information of interest on one searchable database for anyone, anywhere to access. <http://open.barnet.gov.uk/>

Advice and Assistance : Direct Marketing

If you are a company that intends to use the names and contact details of council officers (or other officers) provided in this response for direct marketing, you need to be registered with the Information Commissioner to process personal data for this purpose. You must also check that the individual (whom you wish to contact for direct marketing purposes) is not registered with one of the Preference Services to prevent Direct Marketing. If they are you must adhere to this preference.

You must also ensure you comply with the Privacy Electronic and Communications Regulations (PECR). For more information follow this Link www.ico.org.uk

For the avoidance of doubt the provision of council (and other) officer names and contact details under FOI does not give consent to receive direct marketing via any media and expressly does not constitute a 'soft opt-in' under PECR.
