Barnet does not hold data on personal injury collisions directly but has access to records held by TfL. You can obtain data directly from TfL's public facing Road Danger reduction dashboard, which can be accessed here <https://tfl.gov.uk/corporate/publications-and-reports/road-safety#on-this-page-1> . Page 4 of the dashboard provides a collision map that can be filtered to collisions in the area and time period you are interested in.

Data relates only to personal injury collisions reported to the police that meet the reporting guidance. More information about inclusions and exclusions is provided in the associated FAQs available via the link. Note that 2022 data is currently provisional.

However, a summary for the 3 years to 31 October 2022 (most recent data) is below*. Fuller details of the individual collisions including vehicles involved and casualty mode of travel can be obtained from the dashboard. (Note at time of writing the public dashboard has data to end September 2022, although borough officers can currently access data to end October 2022. However, no October 2022 collisions are currently recorded in the roads listed).

Advice and Assistance : Direct Marketing

If you are a company that intends to use the names and contact details of council officers (or other officers) provided in this response for direct marketing, you need to be registered with the Information Commissioner to process personal data for this purpose. You must also check that the individual (whom you wish to contact for direct marketing purposes) is not registered with one of the Preference Services to prevent Direct Marketing. If they are you must adhere to this preference.

You must also ensure you comply with the Privacy Electronic and Communications Regulations (PECR). For more information follow this Link www.ico.org.uk

For the avoidance of doubt the provision of council (and other) officer names and contact details under FOI does not give consent to receive direct marketing via any media and expressly does not constitute a 'soft opt-in' under PECR.
